It has been solved and explained by Gargi.ai Experts and they have tried to elaborate the concept used in Analytical Reasoning Questions.

Analytical Reasoning Questions

Direction: Read the following information carefully and choose the right answer.

Question

Statement: Twenty individuals die each day on average after being hit by trains as they cross the railroad tracks at level crossings. Courses of action: I. The railway authority should be told to instruct all level crossings to be closed. II. People caught crossing the tracks after the gates have closed should face severe penalties.

Difficulty : Moderate

Average Time : 45 Seconds

Options :

1. Only I follows
2. Only II follows
3. Either I or II follows
4. Neither I nor II follows
5. None of these

Solution

The correct answer is **Option 2** i.e. **Only II follows**

Given statement:

Twenty individuals die each day on average after being hit by trains as they cross the railroad tracks at level crossings.

Courses of action:

- I. The railway authority should be told to instruct all level crossings to be closed.
- II. People caught crossing the tracks after the gates have closed should face severe penalties.

Explanation: By prohibiting passengers from crossing the tracks when the gates are closed, accidents can undoubtedly be avoided. Only II then follows.

Hence, the correct answer is **Only II follows**.
