

Blood Relation Questions Overview

Blood Relation Questions have a good weightage in the Banking Exam and the type of question asked in Banking exam is similar to the question mentioned below. It has been solved and explained by Gargi.ai Experts and they have tried to elaborate the concept used in Blood Relation Questions.

Blood Relation Questions

Direction: Read the information carefully and answer the following questions. In a family of eight members, there are three married couples. M is the child of B who is the daughter of Z. L is the sister-in-law of G, who is married to B. N is the grandson of P who is wife of Z. L is married woman but doesn't have any child. M is the niece of R. R doesn't have any sibling.

Question

How many male members are there in the family?

Difficulty : Moderate

Average Time : 50 Seconds

Options :

1. 0
2. 1
3. 2
4. 3
5. 4

Solution

The correct answer is **Option 5** i.e. 4

M is the child of B who is the daughter of Z.

L is the sister-in-law of G, who is married to B. (So, L can either be the sister of B or L can be the wife of B's brother).

N is the grandson of P, who is the wife of Z.

L is a married woman but doesn't have any child.

M is the niece of R.

Case 1:

Case 2:

R doesn't have any sibling. (So, case 2 will get eliminated)

Case 1:

Hence, the correct answer is 4.
