

Blood Relation Questions Overview

Blood Relation Questions have a good weightage in the Banking Exam and the type of question asked in Banking exam is similar to the question mentioned below. It has been solved and explained by Gargi.ai Experts and they have tried to elaborate the concept used in Blood Relation Questions.

Blood Relation Questions

Direction: Read the given information carefully and answer the following questions. In a family, there are nine members Q, W, E, R, T, Y, U, O, and I of three different generations. O is the only grandson of U, who is the husband of Y. T is O's only aunt but T is not the sister of R. E is the daughter of U's wife. Q is the father of T's daughter, who has only one sibling. Y is the grandmother of I, who is the daughter of E's only sister. r is the son-in-law of U. Q is the brother-in-law of E, who does not have any brother.

Question

Who is the daughter of Y?

Difficulty : Moderate

Average Time : 58 Seconds

Options :

1. T
2. U
3. E
4. Both 1 and 3
5. None of these.

Solution

The correct answer is **Option 4** i.e. **Both 1 and 3**

By the family tree diagram, we get all the relationships and gender of the family members.

Clearly, T and E are Y's daughters.

Hence, the correct answer is **Both 1 and 3.**
