

Data Sufficiency Questions Overview

Data Sufficiency Questions have a good weightage in the Banking Exam and the type of question asked in Banking exam is similar to the question mentioned below. It has been solved and explained by Gargi.ai Experts and they have tried to elaborate the concept used in Data Sufficiency Questions.

Data Sufficiency Questions

Directions: A question given below is followed by two statements numbered I, and II. You have to decide whether the data provided in the statements are sufficient to answer the question or not. Read both statements and choose the appropriate option. A) If the data in Statement I alone is sufficient to answer the question. B) If the data in Statement II alone is sufficient to answer the question. C) If the data in Statements I, and II together are not sufficient to answer the question. D) If the data in Statements I, and II together are sufficient to answer the question. E) If the data in either statement I alone or statement II alone is sufficient.

Question

Six people F, G, H, I, J, and K are sitting in a linear row and facing north then who among the following sits immediate left of I? I. F sits second from one of the extreme ends of the line. Only two people sit between F and G. J sits to the immediate right of H. II. H sits third from the left end of the line. Only one person sits between H and K. J sits third to the right of K.

Difficulty : Moderate

Average Time : 83 Seconds

Options :

1. A
2. B
3. C
4. D
5. E

Solution

The correct answer is **Option 3** i.e. **C**

From I statement:

_ F/G H J G/F _

From II statement:

K _ H J _ _

From I and II:

K F/G H J G/F I

Clearly, data in Statements I, and II together are not sufficient to answer the question.

Hence, the correct answer is **C**.
