Data Sufficiency Questions Overview

Data Sufficiency Questions have a good weightage in the Banking Exam and the type of question asked in Banking exam is similar to the question mentioned below. It has been solved and explained by Gargi.ai Experts and they have tried to elaborate the concept used in Data Sufficiency Questions.

Data Sufficiency Questions

Direction: Following questions consists of a question and two statements I and II. You have to decide whether the data provided in the statements are sufficient to answer the question. Choose your response accordingly among A, B, C, D and E. A) If the data in Statement I alone is sufficient to answer the question. B) If the data in Statement II alone is sufficient to answer the question. C) If the data either in Statement I alone or in Statement II alone is sufficient to answer the question. D) If the data in both the Statements I and II together are not sufficient to answer the question. E) If the data in both the Statements I and II together are necessary to answer the question.

Question

What is the code for 'fast' in the code language? Statement I: In the code language 'she walks fast' is written as 're ka to'. Statement II: In the code language 'he learns fast' is written as 'lo ka te'.

Difficulty : Moderate   **Average Time : 74 Seconds**

Options :

1. A

2. B

3. C

4. D

5. E

Solution

The correct answer is **Option 5** i.e. **E**

Understanding

Statement I: In the code language 'she walks fast' is written as 're ka to'.

we can not determine the code for 'fast' from the above statement.

Hence statement I alone is not sufficient to answer the question.

Statement II: In the code language 'he learns fast' is written as 'lo ka te'.

we can not determine the code for 'fast' from the above statement.

Hence statement II alone is not sufficient to answer the question.

From both the statements we can conclude that the code for 'fast' is 'ka'

Therefore the correct answer is **E i.e. If the data in both the Statements I and II together are necessary to answer the question.**
