Data Sufficiency Questions

Direction: Following questions consists of a question and two statements I and II. You have to decide whether the data provided in the statements are sufficient to answer the question. Choose your response accordingly among A, B, C, D and E. A) If the data in Statement I alone is sufficient to answer the question. B) If the data in Statement II alone is sufficient to answer the question. C) If the data either in Statement I alone or in Statement II alone is sufficient to answer the question. D) If the data in both the Statements I and II together are not sufficient to answer the question. E) If the data in both the Statements I and II together are necessary to answer the question.

Question

How is E related to U? Statement I: C and D are brothers of B and E is the son of D. Statement II: A is the mother of U who is the son of B.

Difficulty : Moderate

Average Time : 71 Seconds

Options :

1. A
2. B
3. C
4. D
5. E

Solution

The correct answer is **Option 5** i.e. **E**

Undersatnding	Application
---------------	-------------

Statement I:
C and D are brothers of B and E is son of D.

No information about U is given.

Statement II: A is mother of U who is son of B.

No information about E is given.

From I, we can determine that E is the nephew or niece of B

From II, we can determine that A is the wife of B.

From both statements, we concluded that E is the cousin of U.

Hence, the correct answer is **E** i.e. **If the data in both the Statements I and II together are necessary to answer the question.**
