Seating Arrangement Questions

Direction: Read the given information carefully and answer the following questions. A certain number of persons are sitting in a single row. Two persons are facing North and the remaining persons are facing South direction. P sits 3rd to the left of R, who is 4th from the right end and faces north. There are three persons sitting between P and Q, who is an immediate neighbor of S. S does not sit on the left of R. A is an immediate neighbor of B and sits 4th from the left end. There are as many persons sitting between B and P as between P and S. C sits 4th to the right of A. There is one person between C and P.

Question

Four of the following five are alike in a certain way based on a group, find the one which does not belong to that group?

Difficulty : Moderate

Average Time : 66 Seconds

Options :

1. Q
2. S
3. A
4. B
5. C

Solution

The correct answer is **Option 3** i.e. **A**

Decoding the puzzle

1. P sits 3rd to the left of R, who is 4th from the right end and faces north.
2. There are three persons sitting between P and Q, who is an immediate neighbor of S.
3. S does not sit on the left of R.
4. A is an immediate neighbor of B and sits 4th from the left end.
5. There are as many persons sitting between B and P as between P and S.
6. C sits 4th to the right of A.
7. There is one person between C and P.

All the persons are facing south except A.

Hence, the correct answer is **A**.
