

Seating Arrangement Questions Overview

Seating Arrangement Questions have a good weightage in the Banking Exam and the type of question asked in Banking exam is similar to the question mentioned below. It has been solved and explained by Gargi.ai Experts and they have tried to elaborate the concept used in Seating Arrangement Questions.

Seating Arrangement Questions

Direction: Read the given information carefully and answer the following questions. Eight persons A, B, C, D, E, F, G, and H are sitting around a circular table but not necessarily in the same order. All of them are facing toward the center of the table. F sits third to the left of B. C sits second to the right of D. G sits opposite E, who is an immediate neighbor of B and C. A does not sit opposite to C.

Question

How many people sit between D and E when counted from the left of D?

Difficulty : Moderate

Average Time : 53 Seconds

Options :

1. None
2. One
3. Two
4. Three
5. Four

Solution

The correct answer is **Option 5** i.e. **Four**

Decoding the puzzle	Corresponding Inference
---------------------	-------------------------

1) C sits second to the right of D.

2) G sits opposite to the E, who is an immediate neighbour of B and C.

3) F sits third to the left of B.

4) A does not sit opposite to C.

Four people are sitting between D and E.

Hence, the correct answer is **Four**.
