

Security Tools Questions Overview

Security Tools Questions have a good weightage in the Banking Exam and the type of question asked in Banking exam is similar to the question mentioned below. It has been solved and explained by Gargi.ai Experts and they have tried to elaborate the concept used in Security Tools Questions.

Question

Which of the following is a feature of two-factor authentication (2FA)?

Difficulty : Moderate

Average Time : 28 Seconds

Options :

1. It requires two separate passwords.
2. **It is only applicable to financial transactions.**
3. **It requires biometric authentication only.**
4. **It requires both something you know and something you have**
5. It requires separate passwords.

Solution

The correct answer is **Option 4** i.e. **It requires both something you know and something you have.**

Two-factor authentication (2FA) is a security process in which the user provides two different authentication factors to verify themselves.
