

Security Tools Questions Overview

Security Tools Questions have a good weightage in the Banking Exam and the type of question asked in Banking exam is similar to the question mentioned below. It has been solved and explained by Gargi.ai Experts and they have tried to elaborate the concept used in Security Tools Questions.

Question

Which of the following is a common tool for managing and enforcing security policies across a network?

Difficulty : Moderate

Average Time : 29 Seconds

Options :

1. Security Information and Event Management (SIEM)
2. Antivirus Software
3. Backup Software
4. Disk Defragmenter
5. VPN

Solution

The correct option is 1 ie **Security Information and Event Management (SIEM)**.

SIEM tools aggregate and analyze security data from across a network to provide real-time monitoring, event correlation, and reporting, helping to enforce security policies and detect potential threats.
