

Sentence Jumbles Questions Overview

Sentence Jumbles Questions have a good weightage in the Banking Exam and the type of question asked in Banking exam is similar to the question mentioned below. It has been solved and explained by Gargi.ai Experts and they have tried to elaborate the concept used in Sentence Jumbles Questions.

Question

In the following questions, a statement is divided into 5 different segments. Part (A) in the sentence is fixed and other parts may not be in the correct sequence. You have to rearrange the other parts of the sentence to make it contextually and grammatically correct and if the correct option of sequence doesn't match any of the given sequence mark (5) i.e., "None of the above" as your answer. India's Central Drugs Standard Control Organization (CDSCO) has (A)/ in line other regulatory agencies by setting the bar for vaccine (B)/published draft guidelines about the (C)/ development of COVID-19 vaccines, falling (D)/ efficacy at a 50% reduction in infections (E).

Difficulty : Moderate Average Time : 55 Seconds

Options:

- 1. ABCDE
- 2. ABEDC
- 3. ACDBE
- 4. ADCBE
- 5. None of the above

Solution

The correct answer is Option 3, i.e. ACDBE

Concept/Grammar Rules	Application
--------------------------	-------------

Page No: 1

The sentences must be realigned in a way that makes a meaningful statement as a result. Option 3, i.e. ACDBE here seems to be the best sequence as it conforms to the entire

theme of the passage.

Taking statement "A" under consideration "C" seems to show conjunction with it by stating about India's Central Drugs Standard Control Organization (CDSCO) and that it has published draft guidelines about the development of Covid-19 vaccines.

Statement "D" seems to be suceeding "C" and after this "B" seems to be preceeding "E" as "E" provides an ending to the statement depicting about the reduction of infections.

So, we got a sequence i.e. ACDBE, i.e. "1. India's Central **Drugs Standard Control Organization** (CDSCO) has published draft guidelines about the development of COVID-19 vaccines, falling in line other regulatory agencies by setting the bar for vaccine efficacy at a 50% reduction in infections."
