-----------------------	-------------

<p>The sentences must be realigned in a way that makes a meaningful statement as a result. Option 3, i.e. ADBEC here seems to be the best sequence as it conforms to the entire theme of the passage.</p>	<p>Taking statement "A" under consideration "D" seems to show conjunction with it by stating about What is needed is a thoughtful aggressive mass-media campaign on mask usages.</p> <p>Statement "B" seems to be succeeding "D" and after this "E" seems to be preceding "C" as "C" provides an ending to the statement.</p> <p>So, we got a sequence i.e. ADBEC, i.e. "Wearing masks in hot and humid India is not easy. What is needed is a thoughtful aggressive mass-media campaign "in mission mode" to demonstrate how to make simple face coverings at home, and reinforce why they are still important, despite the oppressive realities of life in a densely populated and poor nation — the commute in packed buses and trains, crowded living conditions, and working in sweltering hot spaces with poor ventilation."</p>
