Taking statement "A" under consideration "C" seems to show conjunction with it by stating about India's exports staged a turnaround and grew.

Statement "D" seems to be succeeding "C" and after this "B" seems to be preceeding "E" as "E" provides an ending to the statement.

The sentences must be realigned in a way that makes a meaningful statement as a result. Option 2, i.e. ACDBE here seems to be the best sequence as it conforms to the entire theme of the passage.

So, we got a sequence i.e. ACDBE, i.e. "The past week has thrown up some heartening news on the economic front. First up, after contracting for six months on the trot, India's exports staged a turnaround and grew in September. The pace of growth was marginal at 5.27% but under the circumstances, any growth is a cheerful development. However, imports declined by close to 20% and that is typically bad news for a growing economy."
