

Vocab Misc Questions Overview

Vocab Misc Questions have a good weightage in the Banking Exam and the type of question asked in Banking exam is similar to the question mentioned below. It has been solved and explained by Gargi.ai Experts and they have tried to elaborate the concept used in Vocab Misc Questions.

Question

In the following questions, a statement is divided into 5 different segments. Part (A) in the sentence is fixed and other parts may not be in the correct sequence. You have to rearrange the other parts of the sentence to make it contextually and grammatically correct and if the correct option of the sequence doesn't match any of the given sequence, mark (5) i.e., "None of the above" as your answer. Water quality can be seriously degraded by contamination with pollutants, (A)/ giving rise to a range of health-related and ecological effects (such as the degradation of coral reefs)(B)/ such run-off may contain significantly elevated levels of nitrogen and phosphorus from agricultural land and from human settlements (C)/ Many other human activities lead to water pollution, including mining and industrial processes, which may create toxic effluent (D)/ A major source of water pollution is the terrestrial run-off to inshore waters that occurs in many coastal locations; (E).

Difficulty : Moderate

Average Time : 67 Seconds

Options :

1. ABCDE
2. ABECD
3. ACEBD
4. ADEBC
5. None of the above

Solution

The correct answer is **Option 2, i.e. ABECD.**

Concept/Grammar Rules	Application
--------------------------	-------------

<p>The sentences must be realigned in a way that makes a meaningful statement as a result. Option 2, i.e. ABECD here seems to be the best sequence as it conforms to the entire theme of the passage.</p>	<p>Taking statement "A" under consideration "B" seems to show conjunction with it by stating that Water quality can be seriously degraded by contamination with pollutants, giving rise to a range of health-related and ecological effects (such as the degradation of coral reefs.</p> <p>Statement "E" seems to be succeeding "B" and after this "C" seems to be preceding "D" as "D" provides an ending to the statement.</p> <p>So, we got a sequence i.e. ABECD, i.e. "Water quality can be seriously degraded by contamination with pollutants, giving rise to a range of health-related and ecological effects (such as the degradation of coral reefs). A major source of water pollution is the terrestrial run-off to inshore waters that occurs in many coastal locations; such run-off may contain significantly elevated levels of nitrogen and phosphorus from agricultural land and from human</p>
