Concept/Grammar Rules	Application
-----------------------	-------------

The query is about finding the appropriate synonym which represents a word or phrase that means exactly or nearly the same as another word or phrase in the same language and antonym which represents a word opposite to the given word "Confide". Option 4, i.e. "Disclose-Conceal" seems to be the appropriate pair of synonym and antonym of the given word.

The word "Confide" means tell someone about a secret or private matter while trusting them not to repeat it to others and the pair given in option 4 seems to be representing the pair of synonym-antonym for the given word as the word "Disclose" seems to be its synonym as it means to make (secret or new information) known and the word "Conceal" means not allow to be seen; hide.

Further, the remaining pairs are representing either a pair of synonyms or antonyms to the given word.
